

# OUR GOAL

- 1 Write down your group goal in the magnifying glass (100% of what your group hopes to earn).
- 2 Figure the amount needed in money or product units for each level. These levels should correspond with the percentages on the handle of the magnifying glass. Write down the levels in the pink boxes (100% at the top - 10% at the bottom).
- 3 Determine personal learning and sales goals.
- 4 As you achieve your goals, check off each box and watch your progress grow!

## Safety Tips

- Make sure you return the permission slip to participate in the product activity signed by a parent or guardian to your Girl Scout adult.
- Remember adults must monitor, supervise and guide the product activities of all age levels.
- Always use the buddy system, never sell alone.
- Girl Scout Daisies, Brownies and Juniors must always be accompanied by an adult.
- Girl Scout Cadettes, Seniors and Ambassadors must be supervised by an adult.
- Only sell in areas of your neighborhood you are familiar with.
- Never carry large amounts of cash with you. Girl Scout Daisies should let adults accept all money.
- Never enter someone's home while you are selling.
- Never sell to people in cars or in areas away from public access.
- Girls (or adults) cannot sell product on the Internet. This is a council and GSUSA rule to protect the safety of girls and the integrity of the product. Girls can use e-mail to let family and friends know about the activity.
- Return all money as instructed by your group adult. Do not keep big amounts of product money at home, it needs to go to the bank.
- Observe all group and council time lines.
- Follow any GSUSA and council guidelines required for the activity.
