

VANDERBILT LEGENDS CLUB • TUESDAY, SEPTEMBER 20, 2011

The history of Girl Scouting is rich with stories of the positive impact our organization has made on the lives of millions of girls. For almost a century, we have given girls and young women the skills, values and confidence that empower them to make this world a better place.

One critical component of our program is our healthy living initiative. Girls need to feel good about themselves physically and mentally. Our healthy living initiative helps girls sort through the challenges of growing up while teaching them good nutritional and exercise habits and the benefits of an active lifestyle. Our camp and adventure programs provide girls with experiences that challenge the mind and body.

This isn't your average physical education program. We offer many ways for girls to discover healthy living habits now that lead to healthy lifestyles as adults. Your support of Golfing for Girls ensures that more than 14,000 Girl Scouts throughout Middle Tennessee will benefit from our healthy living initiative.
