## CAMP HOLLOWAY

Founded by Josephine Holloway in 1952, Camp Holloway offers overnight and day camp sessions for girls ages 5-17. Camp Holloway features traditional camp activities such as archery, climbing, rappelling, swing by choice, art, hiking, tree climbing and more. In addition, girls can enjoy experiences in theatre, music, TV production, travel programs, robotics and cooking. Our 76-acre property is located 30 minutes north of Nashville and has housing options of cabins and platform tents. Camp Holloway is calling you for an amazing summer.

## CAMP SYCAMORE HILLS

Whether it's canoeing on Sycamore Creek, horseback riding, aiming for the target on the archery range or creating a unique work of art in the craft barn, Camp Sycamore Hills has this and more. Camp is filled with 742 acres of fun programs including outdoor skills, high adventure and science. Girls will stay in cabins or screened cabins. We can't wait to see everyone this summer!

## HAY, DON'T FORGET THE HORSES!

With more than 40 horses and an enthusiastic staff, you can try horseback riding with a sampler program or week long horse program focused on improving your horsemanship skills. Horse sessions include progressive riding instruction, games and barn lessons. Whether you are new to horses or an experienced rider, we have horse programs designed for you! Campers also participate in traditional camp activities during their week.

# ACCOMMODATIONS AT CAMP

Your camper has a variety of options for housing at Camp Holloway and Camp Sycamore Hills. Please find the description of each option below and check your camper's session for which housing option is offered.

## CABIN

A cabin is a climate controlled building with bunk beds or single beds. Girls will sleep in one large room or in several smaller ones with 8-20 other girls. Some cabins include bathrooms and kitchen within the building, and some have bathrooms nearby. Staff members will sleep in the same building (but in a separate room) as the girls.

## SCREENED CABIN

Screened cabins are smaller structures, half wood/half screen, located together in a living unit. Each screened cabin has 4-6 beds. Campers may sleep in bunk beds or single beds. These cabins have electricity and fans but are not climate controlled. They do have bathrooms nearby. Staff members will sleep in a separate cabin near the campers' sleeping area.

## PLATFORM TENT

A platform tent is a semi-permanent structure with a wooden floor and heavy canvas roof and sides. Each tent holds up to 4 beds. Tents are arranged in groups of 5 to form a living unit. The sides can be rolled up to allow a cross breeze. Mosquito netting is provided during summer camp. A bathhouse with showers and flushing toilets is located close to platform tent units. Staff members will sleep in tents separate from the girls.
