INSTRUCTIONS

1. Mix all of the ingredients together in a small saucepan.
2. Keep mixing until most of the lumps are gone.
3. Cook over medium heat, stirring continuously until it thickens into a ball of dough.
4. This take time. Just keep stirring, you will know when you won't be able to stir anymore.
5. Once it has finished cooking, place dough on a flour cutting board and wait for it to cool.
6. Cool for 20-30 minutes. Then knead, adding flour until no longer sticky. (about ½ cup)
7. At this point you could add more food coloring or even glitter.
8. When finished store in the refrigerator in an airtight container.
9. If it starts to be a little sticky, just add flour.
