

- Fill in your Cookie Catcher with markers, crayons, or color pencils.
- Cut out the square template. Then, flip the template over so the printed side is down, and fold each corner of the square towards the center.
- Flip over the template so the flaps are down. Again, fold each corner of the square and align the corners with the center.
- Create a crease in the paper by folding the square down the center. Unfold it, turn the square 90 degrees, and create another crease by folding the square down the center again.
- Keeping the side with Girl Scout Cookies facing downwards, push the four corners of the square towards the center and slip your fingers into the flaps.

Tagalongs

1

Shoot for your stars! List three things you want to do someday.

2

What's your favorite song? Sing it!

Trefoils

8

Find something in the room with your favorite color!

Imagine you just achieved a big dream. Do a dance to celebrate!
